Black Rain

Stone Countertop
Granite Tier 3
Thickness 1¼" (3cm)
Model# C-GT3BlackRain3

Please Note: Image generation will vary on every monitor and printer. Please view an actual sample before making a decision. Samples provided are not intended to be control samples as no two pieces of granite are alike. Variations in color, veining, and pattern are the attributes of nature that give granites their distinctive beauty. This sample shown on our web site is only meant to represent the general characteristics of granite but may not show the exact color and texture of the finished product. Every effort will be made to minimize seams and they will be shown on fabrication drawings for approval prior to fabrication. Each project will be sourced from a numbered, sequenced, matched set of slabs for overall uniformity. Every project is fully assembled and photographed prior to shipment.
Caledonia

Stone Countertop
Granite Tier 3
Thickness 1¼" (3cm)
Model# C-GT3Caledonia3
